

# Arasu Ramanan A

AI Full Stack Developer | MERN Stack | React.js | Node.js | MongoDB

## PROFESSIONAL SUMMARY

Full Stack Developer with 6.10 years of professional software development experience, including 2.4 years of specialized MERN stack experience. Hands-on experience developing scalable web applications using React.js, Node.js, Express.js, MongoDB, REST APIs, JavaScript, and TypeScript. Experienced in authentication and authorization, CRUD operations, third-party API integrations, responsive UI development, real-time applications, payment integration, cloud deployment, and database-driven applications. Experience also includes AI-powered application features, real-time data platforms, dashboards, social video platforms, railway booking applications, and business applications.

## TECHNICAL SKILLS

**Programming Languages:** JavaScript, TypeScript

**AI & Intelligent Applications:** AI-powered insights, AI API integration, AI-driven data analysis

**Frontend:** React.js, Next.js, HTML5, CSS3, Sass, Bootstrap, Tailwind CSS, Material UI, Redux, Responsive Design

**Backend:** Node.js, Express.js, RESTful APIs, Microservices, JWT, PassportJS

**Database:** MongoDB, MongoDB Atlas, MongoDB Compass, Redis

**Real-Time & Communication:** WebSocket, Socket.io, WebRTC, RTSP

**Cloud & Infrastructure:** AWS, AWS EC2

**Tools:** Git, GitHub, Postman, Netlify, Vercel

**Other:** Authentication, Authorization, Role-Based Access Control, API Integration, System Design

## PROFESSIONAL EXPERIENCE

### MERN Stack Developer – Greenbotz Platform

Singapore-based company | 17 Mar 2025 – 28 Nov 2025 | Coimbatore

- Developed and maintained MERN-based web applications for building and condominium management platforms using React.js, Node.js, Express.js, and MongoDB.
- Built a Health Check Dashboard for Singapore-based clients using REST APIs to monitor website uptime and downtime.
- Worked on the Splus mobile application using React Native.
- Integrated third-party systems for streaming camera data into web applications using RTSP.
- Developed modules for resident, visitor, parking, and facility management with secure authentication and role-based access control.

### MERN Stack Developer – Kambaa Incorporation

Coimbatore-based software services company | Jan 2024 – Jan 2025 | Coimbatore

- Developed and scaled MERN-based web applications for Easy Daily, a hyperlocal delivery application serving local vendors and customers.
- Developed a Next.js frontend for a construction website, focusing on performance, SEO, responsive design, and loading speed.
- Contributed to multiple Freshworks projects and implemented reusable application features.
- Implemented CRUD operations and REST API integrations across projects.
- Deployed frontend and backend applications on local servers and managed build, environment configuration, and testing workflows.

## Full Stack Developer – Freelancer

Apr 2023 – Dec 2023 | Remote

- Developed a MERN application for a client using React.js, Node.js, Express.js, and MongoDB.
- Built REST APIs to convert JSON data into PDF and Excel formats.
- Implemented signup and login functionality and stored user data in MongoDB Atlas.
- Deployed frontend and backend applications using Netlify.

## E-commerce Product Manager – Plutoos

Switzerland-based startup | Jan 2021 – Aug 2022 | Coimbatore

- Worked with Shopware 5 and Shopware 6 platforms.
- Added and managed 6,000+ products from Amazon.de, primarily in printer categories.
- Managed product titles, specifications, technical details, images, pricing, and logos.

## Data Logic Typesetter – Toppan Merrill

U.S.-based global financial services company | Oct 2016 – Jan 2019 | Coimbatore

- Worked on financial and legal document formatting using XML and publishing tools.
- Handled document conversion and modification tasks using customized HTML and CSS.
- Followed client guidelines, quality standards, and turnaround timelines across 100+ projects.

## PROJECTS

### Railbook Premium – Railway Booking Platform

Full-stack railway booking platform with authentication, train search, coach and seat selection, booking management, Razorpay payment integration.

Secure RESTful APIs with Node.js/Express and MongoDB.

Authentication/authorization and responsive React.js.

**Technologies:** React.js, Node.js, Express.js, MongoDB, Razorpay, RESTful APIs, JWT, Authentication, Authorization

**Live Demo:** <https://railbookpremium.netlify.app>

### Looply – MERN Social Video Platform

Full-stack social video platform with Instagram Reels-style video uploads, likes, comments, follows, profiles, authentication.

REST APIs, MongoDB, Cloudinary video storage.

Responsive React.js + React Query.

**Technologies:** React.js, Node.js, Express.js, MongoDB, Cloudinary, RESTful APIs, JWT, React Query, Vite

**Live Demo:** <https://looply-mern.netlify.app/login>

### Multitenant – Building Management System

MERN modules for resident, visitor, parking, facility management.

RBAC and multi-tenant architecture.

APIs for resident activity, vehicle entry/exit, visitor logs.

**Technologies:** Node.js, Express.js, React.js, TypeScript, MongoDB, Redis, AWS EC2

### Biomex – Condominium Management Platform

Web dashboards and REST APIs for resident profiles, visitor/renovation approvals, estate ops, facilities.

QR visitor access, video approval, real-time notifications, payment tracking, invoices, e-receipts.

External systems: smart video intercoms, ANPR carpark, BMS dashboards.

**Technologies:** Node.js, Express.js, MongoDB, Bootstrap, Nodemailer, AWS EC2

## **Real-Time Stock Market App with Alerts & AI Insights**

Full-stack real-time stock market platform with live tracking, intelligent alerts, AI-driven insights, watchlists, notification automation.

WebSockets/event-driven background jobs and scheduled alerts.

Financial charts, authentication, user-specific watchlists, customizable alerts, AI-powered stock trend summaries.

BSE and NIFTY 50 support, caching/API optimization/server-side rendering.

**Technologies:** Next.js, Express.js, MongoDB, Tailwind CSS, Nodemailer, WebSockets, Vercel

**Live Demo:** <https://signalist-stock-tracker-app-phi-flax.vercel.app/>

**GitHub:** [https://github.com/arasuramanan/signalist\\_stock-tracker-app](https://github.com/arasuramanan/signalist_stock-tracker-app)

## **EDUCATION**

Msc IT | GRDCS | Jun 2014 - Jun 2016

BSc IT | Dr. GRDCS | Jun 2011 - Jun 2014
